AI INTEGRATION READINESS CHECKLIST

2026 Edition — 47-Point Framework

Identify exactly which parts of your website and business are ready for AI integration — and which will deliver the highest ROI first.

47	6	3	~20min
Checklist Items	Assessment Sections	Priority Tiers	To Complete

HOW TO USE THIS CHECKLIST

Work through each section with your team. Tick every item that currently applies to your business. At the end of each section, total your score. Your results will reveal which AI integrations to prioritise — and which to defer until your foundations are stronger.

● High priority ● Medium priority ● Lower priority

1 Website & Technical Foundations

Before AI, your infrastructure must be solid.

- ☐ ● **Your website is live and publicly accessible** — TECHNICAL
  AI tools need a stable URL to integrate with
- ☐ ● **Your site loads in under 3 seconds on mobile** — TECHNICAL
  Slow sites hurt AI chatbot perceived performance
- ☐ ● **You have HTTPS / SSL certificate active** — SECURITY
  Required for most AI API connections
- ☐ ● **Your website has a clear sitemap and structured navigation** — TECHNICAL
  Helps AI tools understand your content structure

- [ ] **You have access to your website's codebase or CMS** — Necessary to embed AI widgets and scripts — TECHNICAL
- [ ] **Google Analytics or equivalent tracking is installed** — Essential for measuring AI impact post-launch — ANALYTICS
- [ ] **Your website has a contact or lead capture form** — Common first automation target — TECHNICAL
- [ ] **You have API access to your CRM or email platform** — Required for AI-to-CRM automation pipelines — TECHNICAL

Section 1 Score: ___ / 8 ■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

2 Business Data & Knowledge Base

AI is only as smart as the data you give it.

- [ ] **You have documented FAQs or a help centre** — Primary training data for AI chatbots — CONTENT
- [ ] **Your product/service catalogue is up-to-date and structured** — Used to train product-aware AI responses — CONTENT
- [ ] **You have written brand guidelines or a tone-of-voice document** — Shapes how your AI communicates with customers — CONTENT
- [ ] **Your team follows consistent processes that are written down** — Undocumented workflows are harder to automate — DISCOVERY
- [ ] **You have historical customer support transcripts or tickets** — Gold for training AI support bots — ANALYTICS
- [ ] **Your pricing and policies are publicly or internally documented** — Chatbots need this to answer buyer questions — CONTENT
- [ ] **You can provide at least 50 real customer Q&A; examples** — Minimum for meaningful chatbot training — CONTENT
- [ ] **You have existing content — blog posts, guides, product descriptions** — Used for AI-powered content personalisation — CONTENT

Section 2 Score: ___ / 8 ■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

3 Customer Touchpoints & Automation Targets

Where does AI deliver the fastest ROI for your business?

- [ ] **You receive 5+ repetitive customer enquiries daily** — Primary indicator for AI chatbot ROI — DISCOVERY

Your team manually follows up leads via email or phone
High-value automation target — DISCOVERY

You post to social media manually more than 3x per week
Strong candidate for AI automation — DISCOVERY

You have a booking or scheduling process done via email/phone
AI booking bots can recover significant time — DISCOVERY

Your support team answers the same questions repeatedly
Clearest signal for AI chatbot deployment — DISCOVERY

You process invoices, forms, or documents manually
Document AI can eliminate this entirely — DISCOVERY

You have a checkout or signup flow with a high abandonment rate
AI can intervene with personalised offers — ANALYTICS

You send newsletters or marketing emails manually
Automatable with AI-generated personalisation — DISCOVERY

Section 3 Score: ___ / 8 ■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

4 Team & Operational Readiness

AI works best when your team is prepared to use it.

A decision-maker is available to approve AI training data and outputs
AI projects stall without a clear owner — STRATEGY

Your team is open to changing workflows when AI is introduced
Cultural readiness is the #1 adoption factor — STRATEGY

You have a budget allocated for AI tools or development
Even simple AI integrations require investment — STRATEGY

You have a technical contact or IT person we can work with
Speeds up integration by 30–50% — TECHNICAL

Your team currently uses any SaaS tools (CRM, helpdesk, etc.)
Existing integrations make AI pipelines faster — TECHNICAL

You have defined KPIs for what 'success' looks like
Without KPIs, you can't measure AI ROI — STRATEGY

You can dedicate 2–4 hours to the onboarding and training process
Minimum time commitment for a quality integration — STRATEGY

Section 4 Score: ___ / 7 ■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

5 Data Privacy & Compliance

Responsible AI starts with knowing your obligations.

- [ ] **You have a Privacy Policy on your website** — Required before deploying any AI that handles user data — SECURITY
- [ ] **You know whether your customers are in the UK or EU (GDPR territory)** — Determines which AI data rules apply to you — SECURITY
- [ ] **You do not store sensitive financial data (card numbers, etc.) on-site** — AI chatbots must not have access to PCI-scope data — SECURITY
- [ ] **Your team understands that AI responses should be reviewed periodically** — AI hallucinations are real — human oversight matters — STRATEGY
- [ ] **You are comfortable with AI vendors (OpenAI, Anthropic) processing data** — Check vendor data processing agreements first — SECURITY
- [ ] **You have cookie consent / GDPR banner if serving EU users** — AI analytics tools require user consent — SECURITY
- [ ] **You can provide a data processing agreement to clients if required** — Enterprise clients often require this — SECURITY

Section 5 Score: ___ / 7

■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

6 AI Strategy & Prioritisation

Knowing what to build first is the most valuable decision.

- [ ] **You have identified 1–3 specific problems you want AI to solve** — Vague AI projects deliver vague results — STRATEGY
- [ ] **You know which competitors are already using AI on their websites** — Competitive context shapes your AI priorities — STRATEGY
- [ ] **You have a timeline in mind for your AI project** — Helps scope the right integration level — STRATEGY
- [ ] **You understand the difference between AI chatbots and AI automation** — Common confusion leads to mis-scoped projects — STRATEGY
- [ ] **You are open to starting with a small, measurable AI pilot** — The fastest path to proven ROI — STRATEGY
- [ ] **You have reviewed at least one real AI integration case study** — Sets realistic expectations for timeline and results — STRATEGY
- [ ] **You are ready to book a consultation with an AI integration service** — If yes — you're ready. Let's talk. — STRATEGY

Section 6 Score: ___ / 7 ■ 80–100% Ready to integrate ■ 50–79% Some prep needed ■ Under 50% Build foundations first

INTERPRETING YOUR RESULTS

Add up your total ticks across all 6 sections. Use the guide below to understand your AI readiness level.

SCORE RANGE	READINESS LEVEL	RECOMMENDED NEXT STEP
38 – 47 ticks	AI-Ready Deploy now	Book an AI integration consultation immediately. Your foundations are strong — a chatbot, autom
25 – 37 ticks	AI-Capable Some gaps	Address 2–3 foundational gaps first (data documentation, analytics, privacy policy), then engage a
12 – 24 ticks	AI-Interested Build first	Prioritise website performance, CRM setup, and knowledge base documentation before AI. Azeer
Under 12 ticks	Early Stage Foundations needed	Focus on core digital infrastructure — responsive website, analytics, documented processes. Rev

Ready to integrate AI into your business?

Book a free 30-minute AI integration consultation with the AzeemLab team. We'll review your checklist results, identify your highest-ROI opportunity, and give you a clear action plan — no commitment required.
